

VENUE GUIDE

FOR HAVING A GREAT GIG

- We are a 6-piece band (2 guitars, bass, keyboards, drums & sax). We are happy to squeeze up a bit, but we **will need sufficient space** for all of us and our instruments and PA. Minimum space requirement 15m².
- We need time to set up and sound check. **Please allow us 2 hours access to the venue before** the scheduled start time with the performance area cleared.
- We bring all our own equipment. All we need is some **handy power points**.
- We need to unload a lot of gear, so we need to be **able to park within easy distance**.
- **Our standard set is 2 hours** (2 x 1-hour sets with 20 minute break). Our audiences are usually left asking for more.

If any of the above may be a problem then please contact us and we are happy to discuss requirements.
